

"Be Brave, Be Bright and Be YOU!"

Curriculum

The **Yearly Learning Journey** is what we teach and what order we teach the subjects in and why.
Each year group has the journey planned for the year so that the pupils know what they will be learning about.

The **Sequence of Learning** is how we teach it by creating a well-sequenced and progressive plan using key concepts, knowledge and skills for each subject. Lessons are based around a question or questions, which challenge the pupils learning about the subject.

The **Planning and Assessment** sheet is how we record what is being taught in each lesson and which children need additional support or have stood out. It also records the vocabulary being used within the lesson.

This information then modifies the next half terms sequence of learning.
